

Call for MPAs:

Workshop on Marine Invasive Species in Mediterranean Protected Areas.

23-27 April 2018, Cyprus.

The **IUCN Centre for Mediterranean Cooperation (IUCN-Med)** in collaboration with **ENALIA Physis Environmental Research Centre** will hold a workshop addressing marine invasive species management in mediterranean MPAs. This meeting will take place in Cyprus close to Cape Greco MPA in April 2018.

The workshop objectives are:

- Discuss and learn on invasive alien species **management** activities within MPAs.
- Train in developing field **monitoring** programs and identify the worst fish invasive species.
- Looking at **emerging problems** associated to introduction and establishment.
- Exchange of **experiences and good practices** for prevention and control of invasive alien species, including interaction with fisheries activities.

Language: English.
